

YOUR GLOBAL VOICE FOR NURSING INFORMATICS

The International Medical Informatics Association Nursing Informatics (IMIA NI) is a global network aimed at enhancing information management and patient care through collaboration, knowledge sharing, and innovation.

Executive Committee (2025-2029)

Chair
Nick Hardiker

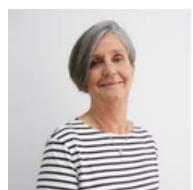

**Vice-Chair
(Membership)**
Tso-Ying (Joy) Lee

**Vice-Chair
(Admin & Finance)**
Ulla-Mari Kinnunen

**Vice-Chair
(Advisory Panels)**
Dawn Dowding

**Vice-Chair
(Communication)**
Helen Almond

Strengthening Nursing Informatics: Why Your Voice Matters

In an era where digital and data systems are vital to modern healthcare, the impact of reduced financial and technical support is being felt across health services worldwide. For nursing informatics, this means navigating the challenges of limited resources while striving to maintain high-quality, data-driven patient care.

But what happens when these essential systems face disruption?

To better understand and address these challenges, the World Health Organization (WHO) is calling on health professionals, including those in nursing informatics, to share their experiences. Your insights are crucial in mapping the real-world consequences of funding cuts — from weakened digital infrastructures to the strain on health workforces and patient outcomes.

 **Continue to page two to learn more about the WHO's Data and Digital Health Systems Impact Assessment Survey and how your participation can drive coordinated global action.**

Together, let's strengthen the future of digital health.

YOUR GLOBAL VOICE FOR NURSING INFORMATICS

The International Medical Informatics Association Nursing Informatics (IMIA NI) is a global network aimed at enhancing information management and patient care through collaboration, knowledge sharing, and innovation.

Share Your Insights on the Impact of Reduced Financial and Technical Support on Digital and Data Systems for Health Systems

The WHO invites professionals working in data and digital information systems for health to complete the Data and Digital Health Systems Impact Assessment Survey. This rapid assessment aims to map and evaluate the effects of reduced financial and technical support to digital and data information systems to health systems, the health workforce, and patient populations, particularly in countries pursuing the Global Strategy on Digital Health.

Why This Matters

Recent shifts in donor priorities and funding reductions have placed critical digital health infrastructure, workforce capacity, and essential support systems at risk, affecting healthcare delivery in some of the world's most vulnerable communities. Digital and data systems are foundational to health service delivery, decision-making, and patient care, and any disruption can have far-reaching consequences.

This brief, emergency survey is designed to capture the collective impact of these budget reductions on governments, development partners, civil society organizations, and others. The findings will help inform opportunities for a coordinated response through networks such as the Global Initiative on Digital Health to safeguard digital health systems and mitigate risks to data continuity, health services, and beneficiary populations.

Your Input is Critical

Your participation will help quantify the scale of impact and to inform urgent policy and funding discussions. WHO is committed to maintaining the confidentiality of all responses—data will be aggregated and anonymized to ensure privacy.

Take the Survey Now:

Some major global Nursing Informatics events expected in 2025 include:

35th Medical Informatics Europe Conference (#MIE2025) – Glasgow, Scotland, 19 to 21 May 2025

20th World Congress on Medical and Health Informatics, MedInfo 2025, will be organized by the Taiwan Association for Medical Informatics (TAMI) from August 9 to 13, 2025

EFMI STC 2025 – Good Evaluation – Better Digital Health, Osnabrück Germany, 20 to 22 October 2025

NI 2028 Advance Notice: November 2-5, Las Vegas, USA (Theme: "Pushing Boundaries: Digital in a Nursing World")

Thank You for Supporting IMIA NI

Together, we're driving innovation and transforming nursing care worldwide.

Stay connected!
